COMPANY PROFILE:

GAS JANITOR is a brand Promoted by **Addict Automation India Pvt. Ltd.** We are manufacture of different type of gas leak detectors, control panels and fire alarm system. Our aim is to secure each life by latest technologies. In the field of safety and security products company has taken the responsibility of gas leak detection and alarm system by using Hi- Tech superior technologies. Our products prove to be a complete safety solution for gas Leak problems. We fabricate our products after much research work so that these are innovative and in compliance with latest technologies.

Among our extensive array of products, we provide a wide range of quality products including LPG detection system and other gases monitoring system. Our offered products are highly recognized among our clients for their convenient installation, rigid structure, smooth operation, abrasion resistance and highly durable. Available in various shapes, sizes and dimensions, offered products are widely used in various industries and residences as corporate buildings, automobile industries, hospitals, refineries, kitchens, hotels, storage yards etc.

We have a well sprawled and advanced manufacturing unit which enable us to produce the best in class products and structures which are unmatched in the market. We also provide these products with customizations. Without compromising with the quality of our products, we have reasonably priced these products by following unmatched price management policies. Owing to the premium quality products and ethical management, we have mustered a huge client base for us. Entire business operations are led by our best qualified team with rich experience and sharp vision.

Our Product Range

Gas Leak Detector: GJ-0317

This model of gas leak detectors comes with **IP65** enclosure with digital representation of gas concentration in the atmosphere. **GAS JANITOR** fixed gas detector designed to detect gas leak and avert gas accidents thus saving precious lives and property. It provides an audio visual alarm in case gas leak concentration reaches a preset level and alerts you to take prompt action. Our product has a special provision of PFC Output which can be operate the industrial hooter, solenoid valve, exhaust fan etc in case of gas leakage.

GJ-0317

Features:

- Available in various power supply (24 VDC/12VDC/220VAC)
- 7-Segment four digit digital display.
- Audio and visual Alarm.
- Weather proof and dustproof (IP65) enclosure.
- Quick Response.
- Long life and simple installation.
- Keys for adjusting alarming level.
- PFC for remote signaling and control.
- Customization also available as 4-20 mA or 0-10 Volts output
- Dimensions (in mm): 132(L) X 90(W) X 58(D)

Available for Gas: LPG, PNG, CNG, CH4, CFC, NH3, CO, H2 etc.

Gas Leak Detector: GJ-0417

This model of gas leak detector comes with the **IP66 & flameproof enclosure** that is **CCOE** and **CMRI** approved. **GAS JANITOR** fixed gas detector designed to detect gas leak and avert gas accidents thus saving precious lives and property. It provides audio and visual indications in case gas leak concentration reaches a preset level and alerts you to take prompt action. Our product has a special provision of PFC Output which can be operate the industrial hooter, solenoid valve, exhaust fan etc in case of gas leakage.

GJ-0417

Features:

- Available in various power supply (24 VDC/12VDC/220VAC)
- LED's Indications.
- Weather proof, dustproof (IP66) and flameproof enclosure.
- Quick Response.
- Long life and simple installation.
- PFC for remote signaling and control.
- Customization also available as 4-20 mA or 0-10 Volts output

Available for Gas: LPG, PNG, CNG, CH₄, CFC, NH₃, CO, H₂ etc.

Gas Leak Detector: GJ-0517

This model of gas leak detectors comes with **IP65** enclosure. **GAS JANITOR** fixed gas detector designed to detect gas leak and avert gas accidents thus saving precious lives and property. It provides audio and visual indications in case gas leak concentration reaches a preset level and alerts you to take prompt action. Our product has a special provision of PFC Output which can be operate the industrial hooter, solenoid valve, exhaust fan etc in case of gas leakage.

GJ-0517

Features:

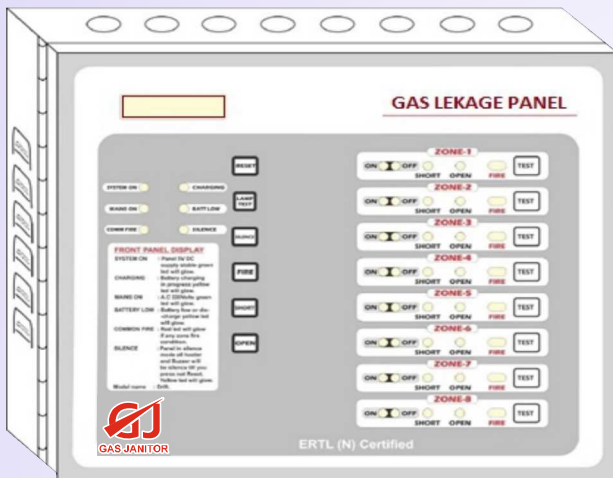

- Available in various power supply (24 VDC/12VDC/220VAC)
- LED's Indications.
- Weather proof, dustproof (IP65) enclosure.
- Quick Response.
- Long life and simple installation.
- PFC for remote signaling and control.
- Customization also available as 4-20 mA or 0-10 Volts output

Available for Gas: LPG, PNG, CNG, CH₄, CFC, NH₃, CO, H₂ etc.

CONTROL PANEL:

GAS JANITOR is very proud to introduce **CONTROL PANEL** which is completely digital microprocessor based panel in Indian fire and safety industry by using the digital technology. Control Panel monitors all the detectors status continuously with the help of LED indications and LCD display. Control Panel can give you accuracy in its performance. For the ease of user there are 16 x 2 characters LCD display in the panel by which situation can be visually identifies as well as LED. Indications are also available.

The size and look of this panel is designed by our Engineers keeping in mind that even a single thing not to disturb attraction of the location.

FEATURERS:

- Operates on 230 V AC, 50 Hz AC supply
- Battery backup with built in charger
- Leakage status in unambiguous colored LED indications.
- 16 x 2 line LCD display
- Zone wise Gas Leak LED indications.
- External switch to test each zone Gas Leak status manually.
- External switch for Reset, Silence, Lamp test.
- Zone isolation facility with loop voltage cut-off.
- Relay O/P for actuators.
- Mains on, System On, Charger on, visual indications.
- Battery Low & Common Leakage indications
- Enough inside space for battery
- Attachable with all types of gas detectors.

Available in: 2 ZONES, 4 ZONES, 8 ZONES, 12 ZONES etc.

MISCELLANEOUS ITEMS

Industrial Hooter

Solenoid Valve

Sprinkler

Smoke Detector
