

## GJ0417

# METHANE (CH<sub>4</sub>) GAS DETECTOR

The GJ0417 is a permanently mounted (fixed) CH<sub>4</sub> Gas Detector which operates on 24 VDC power source and also available in 12VDC and provides an SPDT PFC output .

### Features:

- Weather proof and dust proof (IP66) enclosure.
- CCOE and CMRI approved Enclosure.
- PFC for remote signaling and control.
- Simple installation and maintenance.
- MCU Based.
- Fast Response.

## Technical Specification

1.	Detecting Principle	Semiconductor
2.	Detected Gas	Methane (CH <sub>4</sub> )
3.	Alarm Level	10% LEL
4.	Output	SPDT PFC
5.	Operating Temperature	0 to 55 °C
6.	Operating Humidity	<95%
7.	Response Time	<10 sec
8.	Power Supply	24 VDC/12VDC
9.	Current	<100 mA (In Measuring Condition)
