GAS LEAKAGE ALARM PANEL-8 ZONE

Description:

The **GJCP-08** is an 8-Zone control panel. It shows current status of all connected gas leak detectors. Detectors and control panel connected with four core cable. And it is the central part of conventional gas leakage alarm system. This control panel is also compatible with operate solenoid valve, Hooter, Siren, Fire Panel and BMS.

Features:

- **16x2 dot matrix LCD display**
- **Zone wise LED's indications**
  HEALTHY/ NORMAL: GREEN LED & **GAS LEAKAGE: RED LED**
- **PFC for fire panel communication or other acuators**
- **External TEST switches of manual testing of each zones**
- **External switches for RESET control panel and Hooter SILENCE**
- **Mains ON, System ON, Common LEAKAGE, SILENCE all have seprate LED indications.**
- **Three Layer High voltage/current protection.**
- **Esay Installation i.e. close to PLUG & PLAY type**
- **Battary Back up also available(Optional)**

GAS JANITOR
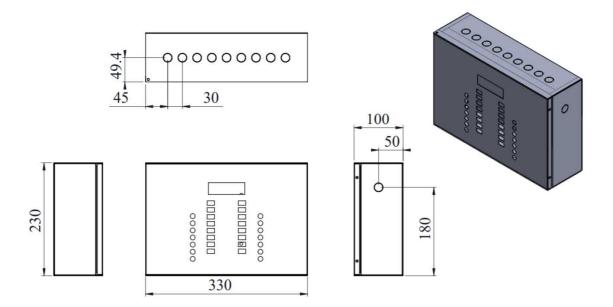

a true safety

Technical Specifications:

- **Operating Voltage** : 220VAC±20
- **Temprature** : 0 to 55°C
- **Humidity** : 95% (Non-Condensing)
- **Output 1** : 24 VDC 1.5 Amp for Slonoid Valve
- **Output 2** : 24 VDC 1 Amp for Hooter
- **Output 3** : PFC for Actautors
- **Diamentions** : (L)330mm*(W)230mm*(D)100mm
- **Color** : Caramel White
- **Material** : CRCA Sheet GUAGE 20 & dualy powder coated
